

# Fact Sheet: Lakewood Recovery Roads Program

City of New Orleans  
Department of  
Public Works

## Project Summary:

The City of New Orleans will implement a multi-million dollar, multi-year comprehensive infrastructure improvement program to repair Hurricane Katrina related sub-surface and road damages. Types of repairs deemed eligible for improvement by FEMA include utilities, sidewalks, American with Disabilities Act compliant ramps, driveway aprons, curbs and road paving.

## Project Facts:

**Phase I:** Between 2008-2009, the City of New Orleans performed citywide repairs to approximately 17,000 damage sites at an estimated cost of \$55.2 M. The total cost of Phase I repairs completed in Lakewood totaled approximately \$290,000.

**Phase II:** The Lakewood Recovery Roads program will include multiple construction repair projects with a total estimated value of approximately \$400,000 for roadway improvements. Design of the future road repairs is currently underway and is being closely coordinated with the Sewerage and Water Board of New Orleans. In Lakewood, construction is currently scheduled to begin in Late Winter 2013 and last through Fall 2014. Road resurfacing work will be limited in some areas of Lakewood. The Sewerage and Water Board of New Orleans will complete subsurface utility line improvements prior to the Department of Public Works' road repairs.

## What to expect during construction:

Residents and businesses in Lakewood should exercise caution when driving, bicycling or walking near active construction sites. Residents can expect to experience temporary construction inconveniences such as limited access to areas within the construction zones, detours, movement of heavy equipment, safety signage and sounds.

In general, construction crews will be working from 7 a.m. to 5 p.m., Monday through Friday. Phoenix Global is designing road improvements in the Lakewood areas. The construction contract is scheduled to be available for bid in Fall 2013.

## Funding Facts:

Neighborhood Area	Phase of Work	Consultants	Total Estimated Repairs
Phase I Completed Repairs	Completed	NA	\$290,000
Phase II Repairs	Planning	Phoenix Global	\$400,000*
<b>TOTAL Repairs Lakewood</b>			<b>\$690,000*</b>

\* FEMA inspectors will be working onsite with the City's design and construction contractor teams. During construction they are likely to identify additional storm damages that may be eligible for repair. In many cases it is likely the scope of work may be adjusted to include additional repairs.
